### Hardstand Waiting List Allocation Rules

1. A Member wishing to be allocated a hardstand mooring position must first register their interest with the Waterfront Office by completing a “Hardstand Waiting List Application”.
2. A Hardstand waiting list is maintained by the Waterfront Office. On receipt of an Application to be placed on the Hardstand Waiting List the Waterfront Office will place the Members name at the end of the list.
3. Member’s names remain in this chronological order.
4. Members names may only remain on the list if the intend to own and sail an International One Design Yacht or other class, division or vessel as approved by General Committee. Classes currently approved are:
  - International Etchells
  - International Dragon
  - International Yngling
  - Sportsboats
5. If a space becomes vacant on the Hardstand then the Waterfront Manager will identify the first name on the Hardstand Waiting List and table that name at the Waterfront Committee Meeting to request approval to allocate a hardstand space to the Member identified.
6. Following approval by the Committee the Waterfront Manager will write to the Member offering them a hardstand space and advise them that they have 2 weeks to accept the offer or it will lapse and be made to the next Member on the list. The Member will be charged for the space from the time of acceptance of the offer. The Member then has a further 2 months to place their yacht on the hardstand. The space will be forfeited if it is not filled within this timeframe. The Club reserves the right to fill any temporarily vacant space and charge for this space (separate to the arrangements between the Club and the Member who has been offered the space) until the Member who has been offered the space fills it.
7. If the Member does not accept the offer they are removed from the Hardstand Waiting List, and must reapply if they wish to remain on the list.
8. Once the acceptance has been received from the Member they will be advised to contact the Dock Master to make arrangements for the arrival date of their yacht. When the yacht arrives the Dock Master will ensure that the cradle is fitted correctly and that the Member is orientated for the safe use of the jib cranes and the use of the hardstand.
