#### **Marcel Petit Comte (Jura, France)**

Comte is a type of Gruyere, similar to the large mountain cheeses made in the Alps, on the borders of France and Switzerland. Comte now represents the largest volume of all cheeses protected by the AOP system. Marcel Petite matures the young wheels at 1,100 metres in the old underground Fort of Saint Antoine. These cheeses have a concentrated nutty texture and gentle sweet honey flavour reflecting the rich milk of the Montbéliard cows that graze the natural mountains pastures.

#### **L'Artisan Grand Fleuri (Gippsland Victoria)**

Grand Fleuri is a surface ripened double brie cheese. Hand crafted from organic whole milk with added cream, this double brie-style cheese has a rich yellow coloured interior that as it ripens, develops a soft, sticky, buttery texture, and a mild, creamy flavour with notes of mushroom and delicate hints of garlic chives.

#### **Cropwell Bishop Stilton (Nottingham England)**

Cropwell Bishop Dairy is one of the smallest dairies in the Stilton-makers' Association still making this classic blue cheese today. This cheese is soft, sweet and savoury and also combines well with the distinct but mild blue mould finish. Notes of honey, leather, tobacco, and molasses can be found. Stilton is the only cheese in England that enjoys a legal name 'protection' and is made in just seven dairies in the Midland counties.

#### **Jensen's Red Washed Rind (Gippsland)**

Jensen's Red is an intense, full flavoured wash rind cheese that continues to mature and develop. The cheese is matured whilst being routinely washed with a light brine. This strongly promotes the intensity of flavour that washed rind cheeses are known for. The wash helps to keep the cheese moist and supple in texture. With a unique and complex paste, the sensation of flavour makes this one of Australia's most popular in this category.
